

## Mobile Games

## Production Line

Mobile games hold a significant place in our company's activity. Our highly professional team of more than 75 animators, designers, developers and programmers develops dynamic and eye-catching games.

Modern technologies enable us to develop games with great multimedia content. Flash and Java technologies, which allow high quality bitmap and vector graphics, gave the foundation for developing mobile games of a new generation.

At present time mobile games are completely comparable by quality with PC games. They include beautiful 2D and 3D graphics, involved action, high program logic and great number of levels.

We develop both single- and multi-player mobile games of all genres: Arcade, Classic, Logic, Maze etc.

## Basketball

Can you imagine playing basketball with Lucy and Rerun, the legendary heroes of Peanuts? It's funny like everything concerning these animation characters.

You choose who you want to be in the game – either Lucy or Rerun. The task of the game is to throw the ball into the basket and get the maximum of points. Of course, this won't be easy because the opponent will hinder you a lot.

The points are shown in the top right hand corner.

## Technical Details:

- Type: J2ME
- Sound: yes
- Highscore function: available on request
- Supported phones: Nokia 7650, Nokia 3650, Nokia N-Gage, Siemens S/SL 55, Sharp GX10 and other
